

Alerts Firing:

Labels:

- alertname = IXPAtomixOperationFailuresCritical
- component = api-gateway
- prometheus = observability/observability-kube-prometh-prometheus
- severity = critical
- signal = dependency-chain-broken

Annotations:

- description = API Gateway is reporting Atomix errors.

Error rate: 0.059998800023999516/sec.

Impact: bid and flow operations may fail.

Suspected causes:

- Consensus quorum loss (insufficient Atomix replicas after scale-down).
- Atomix leader unavailable or election instability.
- Atomix replicas down or not Ready.
- Connectivity issue between API and Atomix.
- Atomix overloaded.

- summary = Atomix operation failures detected
